

NATHANIEL S. H. BROWN

#28 – 567 Ward Street, Nelson, BC
nb576925@purefame.com · 250-254-9871

With multiple forms of technological expertise, I'm available with expert customer service representation, sales of both software and hardware, professional photography, graphic design including logos and formal print-ware, basic accounting with Quickbooks Pro, and project management with tools like JIRA and Jenkins running GIT for source code management.

PROFESSIONAL EXPERIENCE

NOVEMBER 2025 – CURRENT

PHOTOGRAPHER, OPENSEA

Listing photographs as NFT'S for sale with multiple albums of pictures available.

OCTOBER 2025 – CURRENT

PHOTOGRAPHER, 500PX

Photographer with expertise in studio environments and location scouting to places requiring upfront payment.

SEPTEMBER 2022 – JULY 2023

RECYCLER & CLOTHING CO-ORDINATOR, PEER SUPPORT NET AT NELSON CARES

Took care of the clothing rack with supervision and funding provided by the managerial team and government endorsements. Also coordinated recycling and delivery to nearest station.

JANUARY 2000 – CURRENT

OWNER / LEAD, PUREFAME ENTERTAINMENT

The online project that has kept me interested since day one. The project network of celebrities and famous people that have changed our lives. It started as custom development of each profile site as a project, but has now come down to a simplified Rails implementation that involves all aspects in a templated environment.

SEPTEMBER 2005 – MARCH 2014

PHOTOGRAPHER, PERITY STUDIOS

Collaborating with Models, Make Up Artists, Stylists, Clothing Designers, and Graphic Artists to produce still photography for websites, print campaigns, and portfolios

MAY 2013 – FEBRUARY 2014

VP OF TECHNOLOGY, WEDDINGFUL

Working with the Chief Executive Officer, Chief Operations Officer, and managing the entire tech team to design, implement, test, and maintain features on the website (Ruby on Rails, jQuery, BackboneJS, SASS/SCSS, MySQL, CoffeeScript)

JANUARY 2013 – MARCH 2013

SENIOR DEVELOPER, ATIMI SOFTWARE

NHL and NBA sports framework development for mobile environment (iPhone, BlackBerry, Android) * PHP, Ruby, Ruby on Rails, Highly Custom JavaScript for secure cross domain access protocol

APRIL 2009 – MAY 2013

CO-FOUNDER, VIDLI, VIDEO LICENSING

Handling all management duties relating to architecture, user interface design, wireframing, front-end and backend development, art direction, branding, social media, landing pages, advanced metrics, SEO, Google adSense, graphic design for the website as well as print brochures, technical representation for VC and Angel investment. Hands on with Ruby on Rails, AJAX, CSS/XHTML, Information Architecture, UX, graphic design, and technical architecture.

FEBRUARY 2012 – JULY 2012

DEVOPS LEAD / DATA SCIENTIST, BLITZOO GAMES, INC

While working at Blitzoo, I managed the continuous integration system with Jenkins. In addition to managing the Chef systems automation repository building new features and support for the various infrastructure requirements for over 50 servers in the AWS EC2 cloud and local XEN instances.

JANUARY 2003 – OCTOBER 2008

OWNER, INIMIT INNOVATIONS INC.

Contracted with many organizations performing duties such as front-end development (AJAX/CSS/XHTML), Ruby on Rails programming, managed hosting, custom enterprise hosting, website design and architecture, creating database architectures and data modeling, user interface design, SEO, and graphic design. With on-site and remote contracts ranging from 6 months to 18+ months in length.

JUNE 2003 – NOVEMBER 2004

I.T. MANAGEMENT CONSULTANT, ONISON

In the position as IT Management Consultant, I engaged in providing comprehensive documentation outlining the Research and Development being performed by the entire organization which was required for government grants (such as SR&ED), providing technical leadership for the production of our proprietary software leveraging open source technology, advising and leading new approaches for new features of the application suite, in addition to guiding the growth of our team as a technical expert during interviews and board meetings.

MARCH 2001 – JUNE 2003

PARTNER, DIRECTOR OF ECOMMERCE, BACKBONE TECHNOLOGY, INC.

Responsible for all facets of the eCommerce deployments as well as leading new features for the Expression CMS. Through the use of the CMS & eCommerce application, clients were given the ability to maintain their website presence with ease through a secure web administration panel which could be accessed from any internet connection globally.

JANUARY 2000 – FEBRARY 2001

DIRECTOR OF INFORMATION TECHNOLOGY, MyCITYRADIO

MyCityRadio was a leading-edge streaming media company providing a range of video stations online. There were three full time broadcasts running daily during ongoing bandwidth schedule.
